

I thought we lived in a Democracy, where the PEOPLE have the say not some screwed up idiots at Disney, and in Holly****wood. This is crap, give people the choice to decide what they want to do, If you 'broadcast' anything then by FCC definition it is intended for the general public, if Hwood and Disney do not want the public to have it, than sell it on media or pay/per view channels, ... this whol DMCA crap and DRM, MPAA are full of IT, screw them.

Thanks,

Mark
